Dear Renee,

I'm writing to thank you for your November 19th presentation at the library. Solomon Northup's story is one all Americans should be familiar with. For those of us in Saratoga Springs his story, his book, is that much more shocking and that much more important, since Mr. Northup was a resident. Solomon Northup Day, which you founded and managed for years, is a wonderful way to acknowledge and think about Solomon's biography, and this dreadful part of our history. Thanks again for sharing this important and timely information with our library community.

Yours truly,
